

# Charte des couleurs - Colors chart

## Colley - Collie

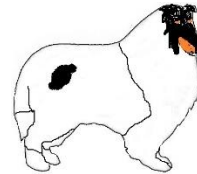

### Index des couleurs-color's list

Solide - solid

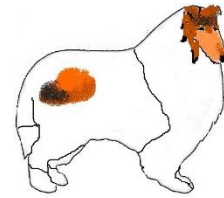

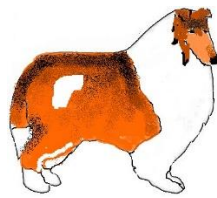

facteur Blanc - white factor

blanc marqué - color headed white

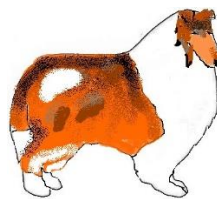

#### Tricolor

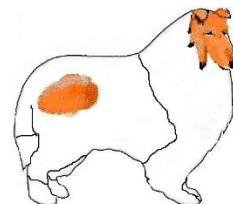

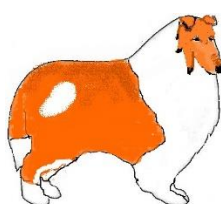

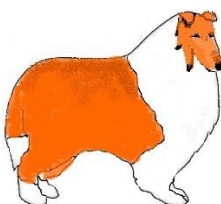

#### Sable facteur tricolor - Sable trifactor

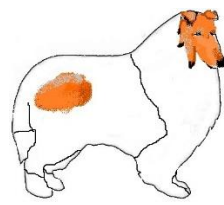

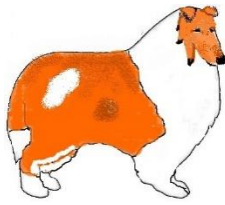

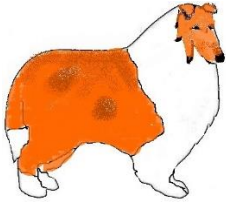

#### Sable merle facteur tricolor - sable merle tri-factor

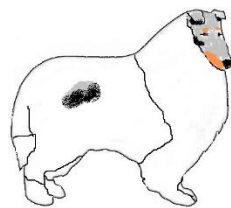

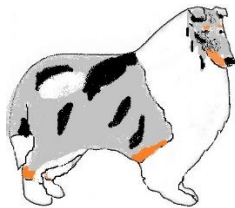

#### Pur Sable

Pur sable merle tri facteur - pur for sable trifactor

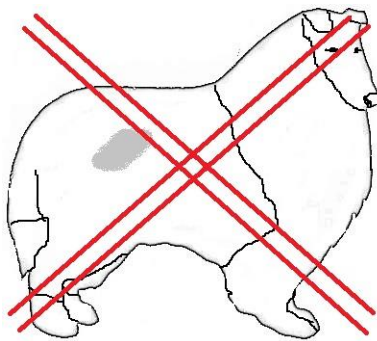

Bleu-merle - Blue merle

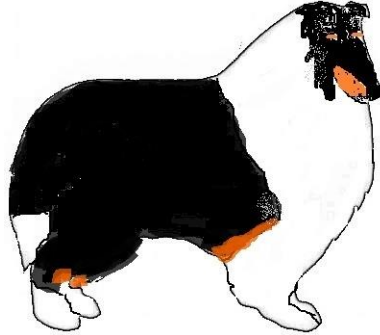

Et le double merle dans tous ses facteurs

And the double merle in all factors

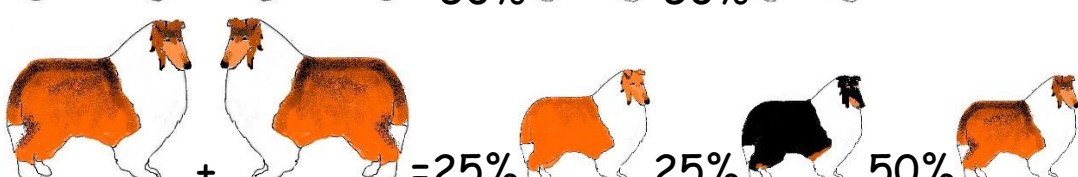

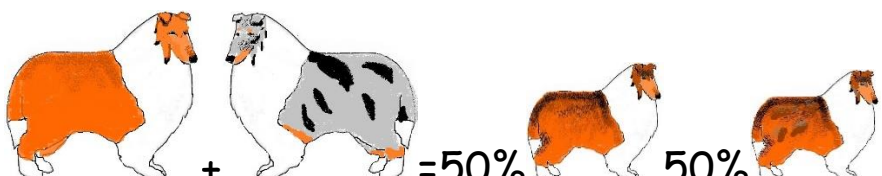

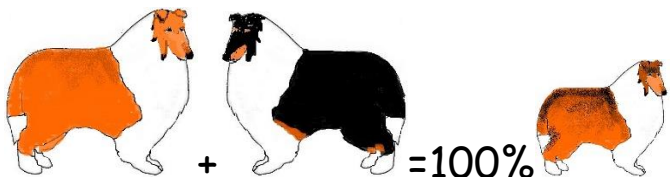

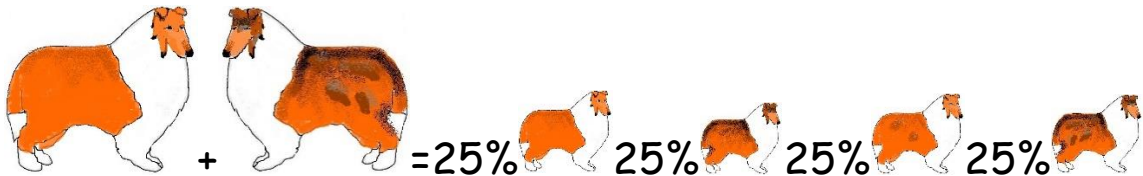

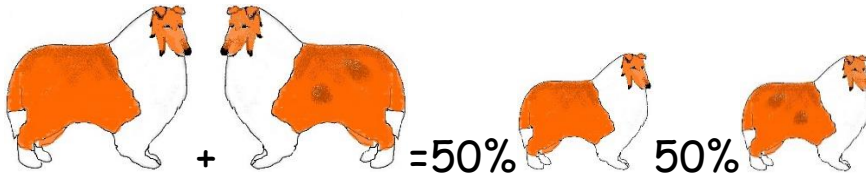

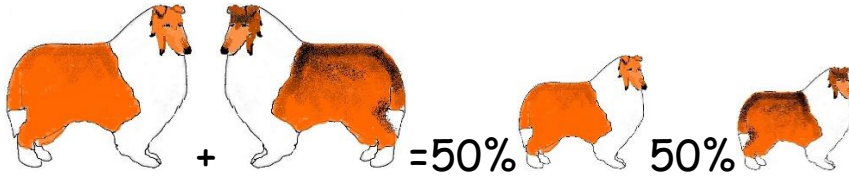

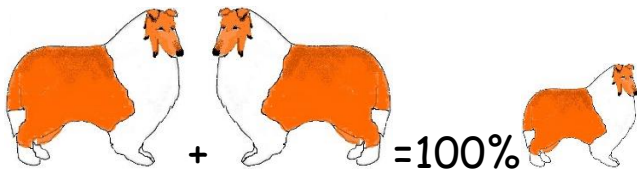

Il existe aussi le bleu fantôme. Le chien a l'allure d'un tricolor mais il est en fait bleu merle. Il doit absolument être considéré comme merle pour les accouplements.

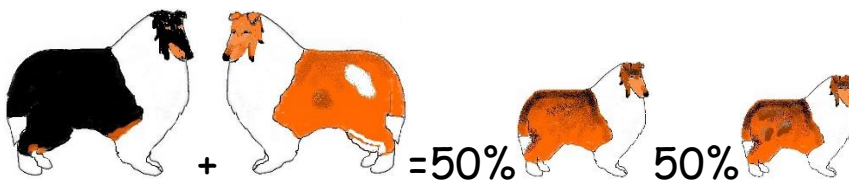

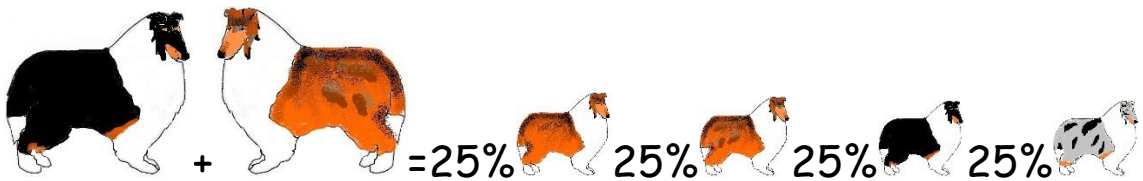

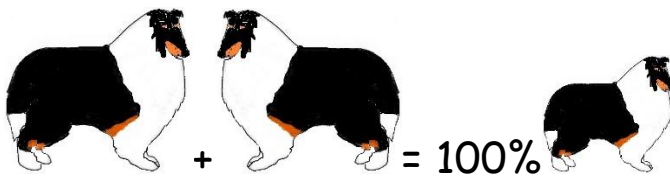

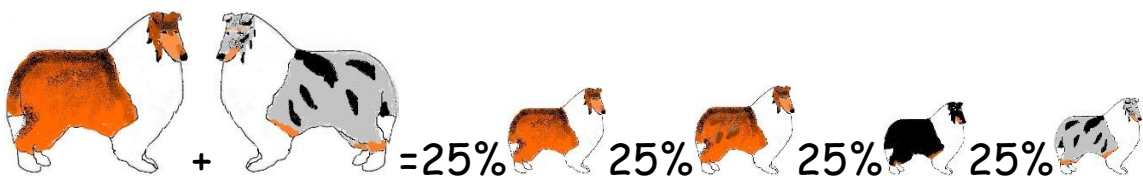

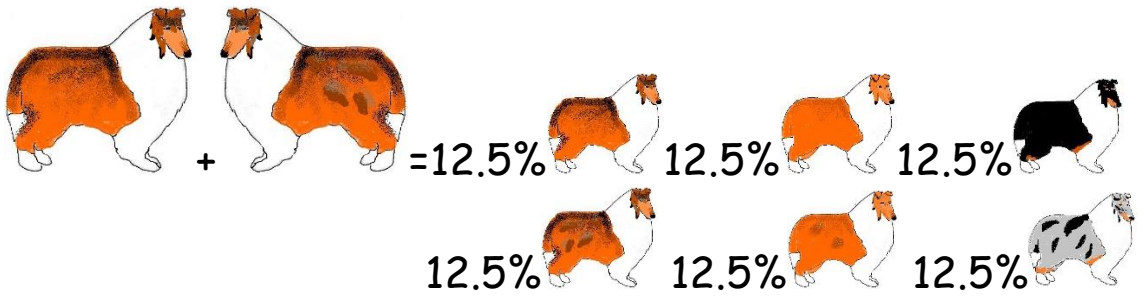

We have also the cryptic blue. The dog looks like a tricolor but it is a blue merle. It must absolutely be considered like a Blue merle for breeding.

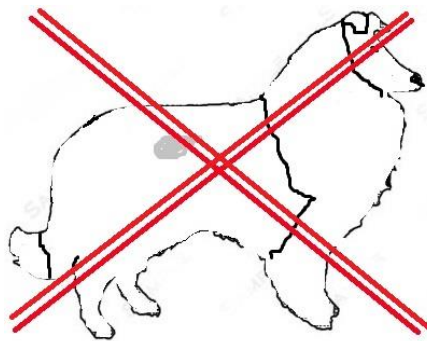

Voici donc le résultat des mariages entre les différentes couleurs. Bien sûr, les % sont à titre informatif car dame nature peut parfois en faire à sa tête !

Here is the result of marriages between different colors. Of course, % are informative because Mother Nature can sometimes make it to his head!

Les accouplements entre merle et facteur merle sont proscrit car ils donneront du double merle. Quelques chiots naissent avec un problème d'audition ou de vision allant de perte partielle a perte totale de ses sens. Les chiots d'un accouplement éventuel avec cette couleur donnerait 100% de chiots merles.

The breed between merle and merle factor are not recommended because they give double merle and some puppies will born with hearing and visual problems ranging from partial to total loss of their senses. An eventual breed with this color will gived 100% merle's puppies.
